

What Is Moodle All About?

MVNU Faculty use a website called Moodle, which is located at "<http://courses.mvnu.edu>". This is where MVNU students will go to find their homework, submit their homework, and look at their syllabi.

When you go to "<http://courses.mvnu.edu>" you will see in the upper right hand corner a login link. Login in to the site using your MVNU username and password. Once you are logged in go to the upper right hand corner and click on "My Courses". Once there you will be able to see all your courses for the semester. If you want to hide any course you do not need to the right of the course is an eye or a hyphen. Click on it and the course will disappear. To unhide the course there is a link right above the courses that says "Manage Hidden Courses". Click on that and find the course you want to unhide. Then go to the right hand side again and click either the eye or plus sign.

If everything in your courses disappears do not panic! To the very left of the screen there will be a tiny blue bar with a white box that if you hover over it, it says "Undock all". Click on the white box and all your courses are back 😊
